Education

University of Cebu – Main Campus **2025 – 2026**
Bachelor of Science in Information Technology *Cebu City*
- Relevant Coursework: Systems Integration, Cloud Computing, Data Structures & Algorithms.
- Certifications: IBM AI Fundamentals, Introduction to Cybersecurity & Penetration Testing.

College Of Technological Sciences - Cebu **2021 – 2022**
Senior High School – TVL-ICT (Computer Programming) Strand *Cebu City*
- Developed practical skills in writing, analyzing, and debugging code across different programming languages.

Experience / Achievements / Certificates

Alliance Software Inc. - Jumpstart Program (1st Place) **2025 – 2026**
Frontend Developer *Cebu City*
- Helped developed a **secure** C# web application from concept to launch.
- Fixed UI and functional bugs across multiple features, improving stability and user experience.
- Built and maintained responsive UI components using React, JavaScript, HTML, CSS/Tailwind and other utilities.

2025 University Of Cebu CCS Days Hackathon 2nd placer **2023 – 2024**
Semi full stack developer *University of Cebu*
- Worked as a semi-full stack developer, building both frontend UI and backend features for the team project.
- Built UI components, integrated APIs, and helped fix major bugs during the limited time.
- Collaborated with a small agile team to finish a functional MVP under pressure

Job Ready: Employability Skills Certificate Of Completion ***May 20, 2026***
https://skilling.wadhwanifoundation.org/
- Job Ready: Employability Skills — Wadhwani Foundation Focused on essential workplace skills including communication, teamwork, problem-solving, and professional readiness for employment in tech and business environments.

Technical Projects

CampusFinder-AI | ***Semi-Full Stack Developer***
- **Tech Used:** React, Node.js/Express, PostgreSQL, Open AI, Neon Database
- An **AI-powered lost-and-found platform** that embeds item descriptions and uses similarity search to match user prompts with possible found items.
- Integrated **AI embeddings** to store item descriptions and calculate similarity scores.
- Implemented a semantic search system that returns results based on meaning, not just keywords.
- Managed full-stack integration including database, API endpoints, and AI processing pipeline.
- Developed the entire frontend using React, including item posting, search UI, and results display.
- Built the backend API with Node/Express to handle item submissions, embeddings, and search queries.

Lamoy Development Initiative | ***Frontend Developer***
- **Tech Used:** React, Node.js/Express, ASP.NET, PostgreSQL, Neon Database
- **Focus:** UX development, Refactoring, Bug fixes.
- Served as one of the two **Frontend Developer**, creating the frontend in React and other utilities
- Helped a full codebase refactor to enforce **Separation of Concerns (SoC)**, transforming the project into a cleaner, **industrial-grade** architecture.
- Did a comprehensive test cases to ensure the delivery of a secure, maintainable, and **production-ready** codebase.

ClearanceApp | Full Stack Developer Intern

Alliance Software Inc.

- **Tech Used:** React, Node.js/Express, ASP.NET, MS SQL Server, Azure DevOps
- **Focus:** Full Stack Development, Backend Engineering, Database Management, Authentication, UI Enhancements, Bug Fixing, Testing
- **Sole developer** responsible for continuing and engineering the ClearanceApp project during internship/OJT, building upon an existing employee clearance management system.
- Built and maintained backend and database features for employee clearance processes.
- Implemented **employee login/authentication and automatic account deactivation** after clearance completion.
- Created an Approver Configuration feature to manage approval settings.
- Fixed bugs and tested the system to make sure it works properly and is stable.

Skills

Languages: Python, C#, JavaScript, TypeScript, SQL.
Database & Cloud: SQL Server, Postgresql Server, Neon Database, Firebase.
Tools & Frameworks: Git/GitBash, ASP.NET, Vite, Node.js, React.js, Express.js, .
Core Competencies: AI Integration, Authentication & Authorization Systems, REST API Development & Integration, Data Management, Secure Backend Development, UI/UX & Responsive Design, Agile/Scrum Workflow
